ANNEXURE : E**MANAGEMENT DISCUSSION AND ANALYSIS REPORT****(a) Industry Structure and Developments:****Global economy**

The global economy has been in better shape than anticipated at the start of the year, having demonstrated some signs of growth, as reflected in the various high-frequency indicators. However, elevated debt levels and continuing geopolitical hostilities aggravate risks to global growth and inflation outlook in the medium-term. In Calendar Year (CY) 2023, the global economy showcased remarkable resilience, with projections indicating continued stability. Global growth is expected to remain at 3.2% in CY 2024, and to be stable in CY 2024 & CY 2025. This upturn is propelled by robust government and private expenditures, buoyed by real disposable income gains, lowering fuel prices and fading supply chain pressures. Global headline inflation is expected to decline to 5.8% in CY 2024, followed by a further drop to 4.4% in 2025, a downward revision from previous forecasts. This decline is attributed to the alleviation of supply-side constraints and the implementation of restrictive monetary policies, leading to a faster-than-anticipated recession in most regions. India, given its structural reforms, strengthening physical and digital infrastructure, as well as upbeat business and consumer confidence, is in a better position to overcome these multiple challenges and emerge stronger. India is on track to become the third-largest economy by 2027, overtaking Japan and Germany.

Industry Overview

India's NBFC sector has emerged as a powerful financial inclusion and economic growth driver. NBFCs have leveraged digitalisation to offer faster, more efficient loan options, particularly to the underserved MSME sector. This digital transformation is a game-changer, and NBFCs are increasingly using super apps to reach and partner with customers, creating a superior customer experience. Technology, data, and analytics are poised to play an even greater role across the NBFC value chain, impacting credit assessment, collections, fraud management, and cyber security.

(b) Opportunities and Threats:

The Company being a Non-Banking Financial Company is primarily engaged in the business of making investments in shares and securities. On account of Government of India's efforts to improve economic growth in the Country by providing opportunities for start-up and infrastructure development is giving hopes to entrepreneurs for exploring new opportunities. The Company is looking forward to use the opportunity at the right moment.

In a volatile stock market, the Company is exposed to the risk of fluctuation in share prices. This however is not likely to affect the working of the Company as a major part of the investments are held on long term basis and temporary fluctuations of those shares in the stock market do not have much financial implication to the Company.

However, the company gives continuous effort to frequently examine the ups and downs of the market particularly taking into consideration that the Company being a NBFC and there are plenty of hindrances which may hamper its growth.

The risk management review framework provides complete oversight to various risk management practices and process. The framework and assessment remains dynamic and aligns with the continuing requirements and demands of the market.

(f) Internal Control System & their adequacy:

The company maintains a system of internal controls design to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the reliability of financial controls and compliance with applicable laws and regulations.

The Company has put in place an adequate system of Internal Controls that commensurate with its size, requirements and the nature of operations. It ensures operational efficiency, accuracy in Financial Reporting and Compliance of applicable Laws and Regulations. The Company has in place Policies and Procedures required to properly and efficiently conduct its business, safeguard its assets, detect frauds and errors, maintain accuracy and completeness of accounting records and prepare financial reports in a timely and reliable manner. The system is also reviewed from time to time. During the year such controls were tested by the Internal and Statutory Auditors with reference to financial statements and no reportable material weakness on the designs or operations were observed. A seamless system has been put in place to ensure that any major discrepancies or lapse in controls are reported to the Audit Committee and Board of Directors of the Company and action is taken to control any breach.

(g) Discussion on Financial Performance with respect to Operational Performance:

This section is covered in the Board's Report under the section of Financial Results and Operations.

INDEPENDENT AUDITORS' REPORT

To The Members of

NAGA DHUNSERI GROUP LIMITED**Report on Standalone Financial Statements****Opinion**

We have audited the accompanying Standalone Financial Statements of NAGA DHUNSERI GROUP LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2024, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's responsibilities for the audit of the standalone Ind AS financial statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Investments in Shares

The Company's investments (other than investments in Subsidiary and associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the company's results, within the company's investments portfolio. The valuation of certain assets such as unquoted equity shares requires significant judgement as a result of quoted prices being unavailable and limited liquidity in these markets.

Considering the degree of subjectivity involved, we have treated it as key audit matter for the current year audit

Audit procedure

We have assessed the company's process to compute the fair value of various instruments. For quoted investments we have independently obtained market quotations and recalculated the fair valuations. For the unquoted instruments, we have obtained an understanding of the various valuations methods used by management and analyzed the reasonableness of the principal assumptions made for estimating the fair values and various other data used while arriving at fair value measurement

INDEPENDENT AUDITORS' REPORT (Contd.)**Information other than the financial statements and auditor's report thereon**

The other information comprises the information included in the Annual report but does not include the standalone financial statements and our auditor's report thereon. The Company's Board of Directors is responsible for the other information.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and

INDEPENDENT AUDITORS' REPORT (Contd.)

appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statement that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended 31st March 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

INDEPENDENT AUDITORS' REPORT (Contd.)

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in Annexure-A, a statement on the matters specified in paragraphs 3 and 4 of the said Order.
3. As required by section 143 (3) of the Act, we report that:
 - i. We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the company so far as appears from our examination of those books;
 - iii. The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including the Standalone Statement of Other Comprehensive Income, the Standalone Cash Flow Statement and Standalone Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - iv. In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - v. On the basis of the written representations received from the directors of the Company as on 31st March, 2024 taken on record by the Board of Directors of the Company none of the Directors are disqualified as on 31st March, 2024 from being appointed as a Director of that company in terms of sub-section 2 of Section 164 of the Act.
 - vi. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
 - vii. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company does not have any pending litigations as on balance sheet date which would impact its financial position.
 - b. The Company does not have any long-term contracts including derivative contracts for which there were any material foreseeable losses, and
 - c. There has been no delay in transferring amounts, required to be transferred, to the Investor Company's Education and Protection Fund by the Investor Company and associate companies incorporated in India;
 - d. (i) The Management has represented that, to the best of it's knowledge and belief, other than as disclosed in the Note 44(j) to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

INDEPENDENT AUDITORS' REPORT (Contd.)

- (ii) The Management has represented, that, to the best of it's knowledge and belief, other than as disclosed in the Note 44(k) to the accounts, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (iii) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to my/our notice that has caused me/us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material mis-statement.
- e. The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.

As stated in Note 37 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

- f. The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1st April, 2023. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of accounts, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, for the periods where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014, is applicable from 1st April 2023, reporting rule 11(g) of the Companies (Audit and Auditors) Rules 2024, on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March 2024.

ANNEXURE-B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NAGA DHUNSERI GROUP LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of NAGA DHUNSERI GROUP LIMITED ("the Company") as of March 31, 2024 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Standalone Financial Statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting with reference to these Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial

ANNEXURE-B TO THE INDEPENDENT AUDITOR'S REPORT (Contd.)

control over financial reporting with reference to these Standalone Financial Statements includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Standalone Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls over financial reporting with reference to these Standalone Financial Statements and such internal financial controls over financial reporting with reference to these Standalone Financial Statements were operating effectively as at 31st March, 2024 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)**2.1.5 Use of estimates and judgements**

The preparation of financial statements in conformity with Ind-AS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the periods in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and for future periods. The estimates and judgements that have significant impact on the carrying amount of assets and liabilities at each balance sheet date are discussed below:

(i) Fair value of financial instruments

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind-AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note – 34

(ii) Business model assessment

Classification and measurement of financial assets depends on the results of the business model test. The Company determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated, Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

(iii) Expected credit loss

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost of effort. This includes both quantitative and qualitative

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

information and analysis, based on the Company's historical experience and credit assessment and including forward looking information.

(iv) Effective interest rate

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected behavioural life of the financial asset to the gross carrying amount of the financial asset.

This estimation by nature, requires an element of judgement regarding the expected behaviour and life cycle of the instruments, the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges) as well expected changes to the base rate and other transaction costs and fees paid or received that are integral parts of the instrument.

(v) Useful life and expected residual value of assets

Depreciation and amortization is derived after determining an estimate of an asset's expected useful life and expected residual value at the end of the life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically including at each financial year end, the lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(vi) Deferred Tax

Deferred Tax is recognized on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realisable, however could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(vii) Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the near future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

for the year ended 31 March 2023 (Contd.)

(viii) **Leases**

The determination of the incremental borrowing rate used to measure lease liabilities

(ix) **Provisions and contingencies**

The Company creates a provision when there is present obligation as a result of a past event and, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When the likelihood of outflow of resources is remote, no provision or disclosure is made.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

2.2 Investments and financial instruments / assets

2.2.1 Date of recognition

Financial assets and financial liabilities are recognized in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

2.2.2 Initial recognition and measurement

Recognised financial instruments are initially measured at transaction price, which equates fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized immediately in the statement of profit & loss.

2.2.3 Classification and Subsequent measurement

(i) **Financial Assets**

The Company based on the business model, the contractual characteristics of the financial assets and specific election where appropriate, classifies and measures financial assets in the following three categories:

(a) **Financial assets at amortised cost**

A financial asset is measured at amortised cost if both following conditions are met:

The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

The contractual terms of The financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on The principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. The Company records loans at amortised cost.

(b) **Financial assets at fair value through other comprehensive income –**

- The financial asset is held within a business model whose objective is achieve by both collecting contractual cash flows and selling the financial assets, and;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

"Gains and losses on these equity instruments are never recycled to Statement of profit & loss but transferred in retained earnings. Dividends on such equity instruments are recognised in Statement of Profit & Loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case such gains are recorded in OCI." Equity Instruments at FVOCI are not subject to an impairment assessment.

(c) **Financial assets at fair value through profit or loss**

A financial asset which do not meet the criteria for categorisation as at amortised cost or as FVOCI, are measured at FVTPL. Subsequent changes in fair value are recognised in the Statement of Profit & Loss.

The Company records investments in equity instruments, other than those classified at amortized cost and at FVOCI and investment in mutual funds at FVTPL.

(ii) **Financial Liabilities and equity instrument**

Equity instruments or debt issued by the Company are classified as either as equity or as financial liabilities in accordance with the substance of the contractual arrangements and the definitions of an equity instrument or of a financial liability.

a) **Equity instrument**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. An equity instrument issued by the Company is recognized at the proceeds received, net of directly attributable transactions costs.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

(b) Financial liabilities

Financial liabilities are measured at amortised cost. The carrying amounts are determined based on the EIR method. Interest expense is recognised in Statement of Profit and Loss. Any gain or loss on de-recognition of financial liabilities is also recognised in Statement of Profit and Loss.

Undrawn loan commitments are not recorded in the balance sheet. However, these financial instruments are in the scope of expected credit loss (ECL) calculation.

2.2.4 De-recognition of financial assets

A financial asset is de-recognised when :

- (i) The contractual rights to receive cash flows from the financial asset have expired, or
- (ii) The Company has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and either
 - (a) The Company has transferred substantially all the risks and rewards of the asset or
 - (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

"On de-recognition of financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset de-recognised) and the sum of

- (i) the consideration received (including any new asset obtained less any new liability assumed) and
- (ii) any cumulative gain or loss that had been recognised in OCI is recognised in Statement of Profit & Loss."

2.2.5 Reclassification

"The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line or changes its business model. Financial liabilities are never reclassified. However, such reclassifications, if any are done prospectively."

2.2.6 Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit & Loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS for the year ended 31 March 2023 (Contd.)

ECL impairment loss allowance (or reversal) is recognised during the period only if material and is recognised as income / expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit & Loss. Financial assets measured at amortised cost: ECL is presented as an allowance i.e. as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the assets meet write-off criteria, the Company does not reduce impairment allowance from the carrying amount.

2.2.7 Investments in Subsidiary and Associates

Interest in subsidiaries, associates and a joint venture are recognised at cost and not adjusted to fair value at the end of each reporting period. Cost represents amount paid for acquisition of the said investments.

The Company assesses at the end of each reporting period, if there are any indications that the said investments may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

3 Fair value measurement

The Company measures financial instruments, such as, investment in mutual funds and investments in equity shares except investment in subsidiaries, associates and joint venture, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of the asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure the fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- i) Level 1 - Quoted prices in an active market (level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities;
- ii) Level 2 - Valuation techniques with observable inputs (level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

- iii) Level 3 - Valuation techniques with significant unobservable inputs (level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This level of hierarchy includes Company's investments in equity shares which are unquoted or for which quoted prices are not available at the reporting dates.

The Company has set policies and procedures for both recurring and non-recurring fair value measurement of financial assets, which includes valuation techniques and inputs to use for each case. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

4 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as Investment Property. Investment Property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Depreciation on investment property is provided on a prorata basis on written down value method over the estimated useful lives. Useful life of assets, as assessed by the Management,

The fair values of investment property is disclosed in the notes. Fair values is determined by the company based on the management on the basis of prevailing rates in the area in which the property is situated considering other factors like age of building etc. and once in every three years, fair value is being ascertained by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property.

5 Property, plant & equipment's and depreciation / amortisation

i) Property, plant & equipment

Property, plant & equipment, capital work in progress except freehold land are carried at cost of acquisition or cost of construction as the case may be, less accumulated depreciation and amortisation. Freehold land is carried at cost.

Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in a manner intended by the management. Changes in the expected useful life, if any, are accounted for by changing the amortisation period and treated as changes in accounting estimates. All other repair and maintenance costs are recognised in the Statement of profit & Loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

An item of property, plant & equipment and any significant part initially recognised, is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the assets (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss, when the asset is derecognised.

ii) Depreciation

Depreciation is provided on a pro-rata basis for all tangible assets on Written down Value Method over the useful life of assets at the rates and in the manner prescribed under Schedule II to the Companies Act, 2013. Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.

Amount paid for leasehold land is amortised over a period of lease on straight line method. The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

iii) Impairment of property, plant & equipment

An assessment is done at each balance sheet date as to whether there are any indications that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset / cash generating unit (CGU) is made. Where the carrying amount of the asset/CGU exceeds the recoverable amount, the carrying value is written down to the recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the revised recoverable amount, subject to maximum of their depreciated historical cost.

6 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

7 Dividend on equity shares

The final dividend on equity shares is recorded as a liability on the date of approval by the shareholders, and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. A corresponding amount is recognised directly in equity.

8 Revenue recognition

- i) Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.
- ii) The Company recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.
- iii) The Company recognises other income (including rent etc.) on accrual basis to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. However, where the ultimate collection of revenue lacks reasonable certainty, revenue recognition is postponed.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)**9 Employee benefits****i) Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii) Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ("the asset ceiling"). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iii) Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS for the year ended 31 March 2023 (Contd.)

iv) Other long term employee benefit obligations

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurement gains or losses are recognised in profit or loss in the period in which they arise.

10 Provisions and contingences

The Company recognises a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure is made in the financial statements.

Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that may arise from past events but probably will not require an outflow of resources to settle the obligation.

When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resource is remote, no provision or disclosure is made. Contingent assets are neither recognised nor disclosed in the financial statements.

11 Leases

The Company as lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Contingent rents are recognised as revenue in the period in which they are earned.

The company as lessee

The Company has adopted Ind-AS 116 -Leases

At the inception of the contract, the Company assesses whether a contract contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For the purpose of identifying if a contract contains a lease, the Company assesses whether:

- i) the contract involves the use of an identified asset
- ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and
- iii) the Company has the right to direct the use of the asset.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except in case of low value leases and short term leases (a term of less than twelve months) wherein the lease payments are recognized as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. The right-of-use assets are initially recognized at cost. Cost includes the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the useful life of the underlying asset or the lease term whichever is shorter. Right of use assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

12 Taxes on Income**i) Current Tax**

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 in respect of taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years.

ii) Deferred Tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

Where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit and loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2023 (Contd.)

Where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit and loss.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside Profit & Loss is recognised outside Profit & Loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority.

13 Earnings per share

The Company reports basic and diluted earnings per equity share. Basic earnings per equity share have been computed by dividing net profit / loss attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share have been computed by dividing the net profit attributable to the equity shares holders after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

14 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The Managing Director of the Company has been identified as the CODM as defined by Ind-AS 108 Operating Segments, who assesses the financial performance and position of the Company and makes strategic decisions.

The Company is dealing primarily in investment of shares and hence it is single segment company and segment reporting is not applicable on the Company.

15 Cash Flow Statement

Cash flows are reported using the indirect method, prescribed in IND AS -7 whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from operating, financing and investing activities of the company are segregated based on the available information.

a) **Description of nature and purpose of each reserve:**

General reserve

General reserve is created from time to time by way of transfer profits from retained earnings for appropriation purposes. General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfer to general reserves, dividends and other distributions made to the shareholders.

Statutory reserve

As per Section 45-IC(1) of the Reserve Bank of India Act, 1934, every non-banking financial company shall create a reserve fund and transfer therein a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared.

FVTOCI Equity investment reserve

The Company has elected to recognise changes in the fair value of investment in equity shares in other comprehensive income. These changes are accumulated within the FVTOCI investment reserve within equity. The Company will transfer amounts from the said reserve to retained earnings when the relevant equity shares are de-recognised.

33 Employee benefits expense

a. **Defined contribution plans:**

The Company makes contributions, determined as a specified percentage of the employee salaries in respect of qualifying employees towards provident fund, which is a defined contribution plan. The amount recognised as an expense towards contribution to provident fund for the year aggregated to ₹ 5.60 lakhs (31 March 2023: ₹ 5.28 lakhs)

b. **Compensated absences:**

The principal assumptions used in determining the compensated absences benefit obligation are as given below:

Particulars	As at 31 March 2024	As at 31 March 2023
Discounting rate (p.a.)	7.00%	7.20%
Future salary increase (p.a.)	5.00%	5.00%

The discount rate is based on the prevailing market yield of Indian government securities as at the balance sheet date for the estimated terms of the obligation.

An amount of ₹ 0.52 lakhs (previous year ₹ 2.27 lakhs) pertaining to compensated absences is recognised as an expense and included in "Employee benefits expense" in Note 26.

c. **Defined benefit plan: Gratuity**

Gratuity scheme - This is an defined benefit plan and it entitles an employee, who has rendered atleast 5 years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement/exit.

- i) On normal retirement / early retirement / withdrawal / resignation: As per the provisions of the Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- ii) On death in service: As per the provisions of the Payment of Gratuity Act, 1972 without any vesting period.

Gratuity payable to employee in case (i) and (ii), as mentioned above, is computed as per the Payment of Gratuity Act, 1972 except the Company does not have any limit on gratuity amount"

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31 March 2023. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit (PUC) Actuarial Method.

The Company has a defined benefit gratuity plan in India governed by the Payment of Gratuity Act, 1972. It entitles an employee who has rendered at least 5 years of continuous service, to gratuity at the rate of 15 days wages for every completed year of service or part thereof in excess of 6 months, based on the rate of wages last drawn by the employee concerned.

(i) Reconciliation of the net defined benefit liability

v) **Actuarial assumptions**

Principal actuarial assumptions at the reporting date (expressed as weighted averages):

	As at 31 March 2024	As at 31 March 2023
Financial assumptions		
Discount rate	7.00%	7.20%
Future salary growth	5.00%	5.00%
Demographic assumptions		
Mortality rate	Indian Assured Lives Mortality (2006-08) Ult	Indian Assured Lives Mortality (2006-08) Ult
Retirement age	58 years	58 years
Withdrawal rate (%)	1.00%	1.00%

As at 31 March 2024, the weighted average duration of the defined benefit obligation was 10 year (31 March 2023: 10 Years).

vi) **Sensitivity analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Particulars	For the year ended 31 March 2024		For the year ended 31 March 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1%)	1.15	1.35	1.01	1.20
Future salary growth (1.%)	0.43	0.56	0.35	0.88

Although the analysis does not take into account of the full distribution of cash flows expected under the plan, it does not provide an approximation of the sensitivity of the assumptions shown.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

vii) **Maturity profile**

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Particulars	As at 31 March 2024	As at 31 March 2023
1 Year	1.18	4.13
2 to 5 Years	0.75	0.86
5 Years Onwards	6.61	6.61

viii) **Risk analysis**

The Company is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans and management estimation of the impact of these risks are as follows:

- a) **Discount Rate Risk** : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
- b) **Salary Growth Risk** : Higher than expected increases in salary will increase the defined benefit obligation
- c) **Demographic Risk** : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

34 Financial instruments – Fair values and risk management

(i) **Valuation principles**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as explained below:

iii) **Measurement of fair values**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted prices in an active market (level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques with observable inputs (level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 – Valuation techniques with significant unobservable inputs (level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This level of hierarchy includes Company's investments in equity shares which are unquoted or for which quoted prices are not available at the reporting dates.

iv. **Valuation Technique Used to Determine Fair Value**

Specific valuation techniques used to value financial instruments as explained below:

Particulars	Fair value hierarchy	Valuation technique	Significant unobservable inputs	Inter-relationship between unobservable inputs and fair value measurement
Financial assets measured at FVPL or FVOCI				
Investment in mutual funds	Level 1	'Market valuation technique: Investments traded in active markets are determined by reference to quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house, quoted price of equity shares in the stock exchange etc.	Not applicable	Not applicable
Investment in equity shares Quoted	Level 1	'Market valuation technique: Investments traded in active markets are determined by reference to the last traded rate of NSE/BSE.	Not applicable	Not applicable
Investment in equity shares Unquoted	Level 3	'The fair value of the unquoted financial instruments is determined using discounted cash flow analysis and price to book value multiple as applicable	Price not available in active market	Discounting the aggregate future cash flow and Price to book value.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period

35 Financial risk management

Introduction and risk profile

The Company is a Non Banking Financial Company registered with Reserve Bank of India.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Credit risk

"Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations and arises partially from the investments."

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

Credit risk is being managed using a set of credit norms and policies. The Company has defined roles and responsibilities for originators and approvers. All credit exposure limits are approved by Board of Directors. The Company follows a process of time-to-time revisiting the credit policy and processes, on the basis of experience and feedback.

The Company has categorised all its financial assets at low credit risks on account of no past trends of defaults by any parties. Therefore, the provision for expected credit loss has been made as per the Reserve Bank of India's prudential norms at 0.40% of the loan assets (which are not credit impaired)

The carrying amount of financial assets represent the maximum credit risk exposure. The maximum exposure to credit risk at the reporting was:

Particulars	As at 31 March 2024	As at 31 March 2023
Cash and cash equivalents (including bank balances) (Refer Note 3 & 4)	459.21	53.48
Investments	28,249.10	18,780.78
Other financial assets	120.79	60.02

As at 31 March 2023		
Unsecured Loan	30.00	-
Less: Allowance for Impairment Loss	0.12	-
Total	29.88	-

Credit risk relating to cash and cash equivalent and bank deposits is managed by only accepting banks and financial institution counterparties after evaluating parameters like capital adequacy, non- performing assets, profitability and liquidity ratios and net worth and by diversifying bank deposits in different banks across the country.

ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions in a timely manner, without incurring unacceptable losses or risking damage to the Company's reputation.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

The Company's primary sources of liquidity include cash and bank balances, deposits, investment in mutual funds and cash flow from operating activities. As at 31 March 2024, the Company had a working capital of ₹ 7461.47 lakhs (31 March 2023: ₹ 4213.70 lakhs) including cash and cash equivalent of ₹ 459.21 lakhs (31 March 2023: ₹ 53.48 lakhs).

Consequently, the Company believes its revenue, along with proceeds from financing activities will continue to provide the necessary funds to cover its short term liquidity needs.

iii) **Market risk**

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) **Foreign currency risk**

Foreign Currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is not exposed to foreign currency risk as the Company does not have receivables or payables in foreign currency.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

b) **Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk from the external borrowings that are used to finance their operations.

c.) **Market price risk**

The Company is mainly exposed to the price risk due to its investment in mutual funds and quoted equity shares. The price risk arises due to uncertainties about the future market values of these investments. The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in mutual funds and equity shares.

iv) **Legal and operational risk**

a) **Legal Risk**

Legal risk is the risk relating to losses due to legal or regulatory action that invalidates or otherwise precludes performance by the end user or its counterparty under the terms of the contract or related netting agreements. There is currently no legal risk on the company.

b) **Operational risk**

Operational risk framework is designed to cover all functions and verticals towards identifying the key risks in the underlying processes. The framework, at its core, has the following elements:

1. Well defined Governance Structure.
2. Regular workshops and training for enhancing awareness and risk culture.
3. Documented Operational Policy.

INDEPENDENT AUDITORS' REPORT

To the Members of

NAGA DHUNSERI GROUP LIMITED

Report on the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of NAGA DHUNSERI GROUP LIMITED (hereinafter referred to as “the Investor Company”), and its associate, comprising of the consolidated Balance sheet as at March 31, 2024, the consolidated Statement of Profit and Loss, including other consolidated comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the Consolidated Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013, as amended (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the group, its associate as at March 31, 2024, their consolidated loss including consolidated other comprehensive loss, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements’ section of our report. We are independent of the Investor in accordance with the ‘Code of Ethics’ issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Investments in Shares

The Company’s investments (other than investments in associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the company’s results, within the company’s investments portfolio. The valuation of certain assets such as unquoted equity shares requires significant judgement as a result of quoted prices being unavailable and limited liquidity in these markets.

Considering the degree of subjectivity involved, we have treated it as key audit matter for the current year audit.

Audit procedure

We have assessed the company’s process to compute the fair value of various instruments. For quoted investments we have

INDEPENDENT AUDITORS' REPORT (Contd.)

independently obtained market quotations and recalculated the fair valuations. For the unquoted instruments, we have obtained an understanding of the various valuations methods used by management and analyzed the reasonableness of the principal assumptions made for estimating the fair values and various other data used while arriving at fair value measurement.

Information other than the Consolidated Financial Statements and auditor's report thereon

The other information comprises the information included in the Annual report, but does not include the Consolidated Financial Statements and our auditor's report thereon. The Investor Company's Board of Directors is responsible for the other information. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Investor's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Investor in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The respective Board of Directors of the companies included in the Investor are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Investor and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Investor Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Investor are responsible for assessing the ability of the Investor to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Investor or to cease operations, or has no realistic alternative but to do so.

Those respective Boards of Directors of the companies included in the Investor are also responsible for overseeing the financial reporting process of the Investor.

Auditors' Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

INDEPENDENT AUDITORS' REPORT (Contd.)

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Investor of which we are the independent auditors, to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the Consolidated Financial Statement that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statement.

We communicate with those charged with governance of the Investor Company and such other entities included in the

INDEPENDENT AUDITORS' REPORT (Contd.)

Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the Consolidated Financial Statements of one associate, whose Ind AS financial statements reflect total assets of Rs. 4,42,243.90 Lakhs as at March 31, 2024, total revenues of Rs. 51,541.59 lakhs for the year ended on that date and net cash outflow amounting to Rs.143.20 Lacs for the year ended on that date, as considered in the consolidated annual financial results.
- (b) The consolidated annual financial results include investor's share of net profit after tax of Rs.1,054.99Lakhs and total comprehensive income of Rs.6,282.72 Lakhs for the year ended March 31, 2024, as considered in the consolidated annual financial results, in respect of one associate, whose Consolidated Financial Statements have been audited by their respective Independent Auditor's. The Independent Auditor's reports on the Consolidated Financial Statements of these entities have been furnished to us by the management and our opinion on the consolidated annual financial results, in so far as it relates to the amounts and disclosures included in respect of these entities, is based solely on the report of such other auditor's and the procedures performed by us are stated in paragraph above.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the Consolidated Financial Statements certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by section 197(16) of the Act based on our audit, we report that the Investor Company has paid remuneration to their directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
2. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order report issued till date by us, we report that there are no qualifications or adverse remarks reported in the Order report of the Investor Company.
3. As required by sub-section 3 of Section 143 of the Act, we report, to the extent applicable, that:

INDEPENDENT AUDITORS' REPORT (Contd.)

- (i) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
- (ii) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the report of the other auditor.
- (iii) The consolidated balance sheet, the consolidated statement of profit and loss, the consolidated statement of changes in equity and the consolidated cash flow statement dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
- (iv) In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (v) On the basis of the written representations received from the directors of the Investor Company as on March 31, 2024 taken on record by the Board of Directors of the Investor Company and the report of the statutory auditors of its associate companies, incorporated in India, none of the Directors of the other companies incorporated in India is disqualified as on March 31, 2024 from being appointed as a Director of that company in terms of sub-section 2 of Section 164 of the Act.
- (vi) With respect to the adequacy of the internal financial controls over financial reporting of the Investor and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- (vii) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a) the Investor and its associate does not have any pending litigations as on the balance sheet date which would impact its financial position.
 - b) the Investor and its associate did not have any material foreseeable losses on long term contracts including derivatives;
 - c) there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Investor Company and its subsidiary and associate company incorporated in India; and
 - d)
 - (i) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 42(j) to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (ii) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the Note 42(k) to the accounts, no funds have been received by the Group from any

INDEPENDENT AUDITORS' REPORT (Contd.)

person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (iii) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to my/our notice that has caused me/us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material mis-statement.
- e) The final dividend paid by the Investor Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend. As stated in Note 36 to the financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- f) The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1st April 2023. Based on our examination which included test checks and that performed by the auditor of the respective investee company of the investor Company has used accounting software for maintaining its books of accounts, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, for the periods where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014, is applicable from 1st April 2023, reporting rule 11(g) of the Companies (Audit and Auditors) Rules 2024, on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March 2024.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT

Annexure - A to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls over financial reporting of **NAGA DHUNSERI GROUP LIMITED** ("the Investor Company"), its subsidiary and associate companies which are company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Investor Company and its associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that, (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Investor Company and its associate company, which are Companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India"

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024**

1. COMPANY OVERVIEW

INVESTMENT IN ASSOCIATES AND SIGNIFICANT ACCOUNTING POLICIES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2024

INVESTMENT IN ASSOCIATE

The Consolidated Financial Statements of the Company pertain to Naga Dhunseri Group Ltd.(The Investor) and its Associates.

The Associate wise Investment is shown below :

Name of the Companies	Category	Country of Incorporation	Proportion of Ownership Interest
Dhunseri Investments Ltd.	Associate	India	21.59%

2. SIGNIFICANT ACCOUNTING POLICIES:

a) Basis of Preparation of Financial Statements

The financial statement of the Investor comply with all material aspects with Indian Accounting standards (IND AS) notified under section 133 Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act. Any direction issued by the RBI or Other regulators are implemented as and when they become applicable.

b) Functional and Presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency. All amounts have been denominated in lacs and rounded off to the nearest two decimal, except when otherwise indicated.

c) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following material items:

- 1) Financial assets at Fair value through other comprehensive income (FVTOCI) that is measured at fair value.
- 2) Financial instruments at Fair value through profit and loss (FVTPL) that is measured at fair value.
- 3) Net defined benefit (asset)/ liability - fair value of plan assets less present value of defined benefit obligation.

d) Significant accounting judgements, estimates and assumptions

The preparation of the Company's separate financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures and the disclosure of contingent liabilities. This note provides an overview of the areas that involve a higher degree of judgements or complexities and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

information about each of these judgements, estimates and assumptions is mentioned below. Judgements, estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

1 Defined Benefit Plan

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2 Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet can not be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

e) Financial assets**Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories :

- 1) Financial assets at amortised cost
- 2) Financial assets at fair value through other comprehensive income (FVTOCI)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

- 3) Financial assets at fair value through profit or loss (FVTPL)

A financial asset is measured at amortised cost if both following conditions are met :

- i) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following criteria are met :

- 1) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets, and
- 2) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income. In addition, the Company may elect to classify a financial asset, which otherwise meets amortised cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency. After initial measurement, such financial assets are subsequently measured at fair value in the statement of profit and loss.

De-recognition of financial assets

A financial asset is de-recognised when :

- 1) The contractual rights to receive cash flows from the financial asset have expired, or
- 2) The Company has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and either
 - (a) The Company has transferred substantially all the risks and rewards of the asset or
 - (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)**f) Financial Liabilities****i Initial recognition and measurement**

Loans and borrowings are measured at net of directly attributable costs. For trade and other payable maturing within one year from the balance sheet date, the carrying value approximates fair value due to short maturity of these investments.

Financial liabilities are subsequently measured at amortised cost using effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying value approximates fair value due to short maturity of these instruments. Loans and borrowings are measured at net of directly attributable costs. For trade and other payable maturing within one year from the balance sheet date, the carrying value approximates fair value due to short maturity of these investments.

g) Investment in associates

Investment in associates are stated at cost less impairment loss, if any. Investments are tested for impairment wherever event or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of investments exceeds its recoverable amount.

h) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts

i) Property, Plant & Equipment's

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'. Depreciation on Property Plant and Equipment's has been provided on Written Down Value Method as per the useful life and rate prescribed in Schedule II to the Companies Act, 2013 except for the Leasehold Land and Building which is amortised over effective period of agreement. Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be. The residual values, useful life and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Transition to Ind Arson transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2018 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

j) Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as Investment Property. Investment Property is measured at its cost, including related transaction

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

costs and where applicable borrowing costs less depreciation and impairment, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Depreciation has been provided on Written Down Value Method. The fair values of investment property is disclosed in the notes. Fair values is determined by an independent valour who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

k) Leases:**The Company as lessee**

At the inception of the contract, the Company assesses whether a contract contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For the purpose of identifying if a contract contains a lease, the Company assesses whether:(the contract involves the use of an identified asset(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and(iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except in case of low value leases and short term leases (a term of less than twelve months) wherein the lease payments are recognized as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. Lease liabilities are premeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the useful life of the underlying asset or the lease term whichever is shorter. Right of use assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

l) Impairment of Assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)**m) Provisions and contingent liabilities**

"The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made."

n) Dividends

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders.

o) Taxes on Income

- i) Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.
- ii) Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised either in OCI or in other equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.
- iii) Tax credit is recognised in respect of Minimum Alternate Tax (MAT) as per the provisions of section 115JAA of the Income Tax Act, 1961 based on the convincing evidence that the company will pay normal Income tax within statutory time frame and is reviewed at each Balance Sheet date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

p) **Revenue Recognition**

- i) Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.
- ii) Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVTOCI), as applicable. The Company recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVTOCI.
- iii) Rental Income is recognised on accrual basis.
- iv) The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

q) **Employee benefits**

i) **Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii) **Defined Benefit Plan**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ("the asset ceiling"). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iii) Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

iv) Other long term employee benefit obligations

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurement gains or losses are recognised in profit or loss in the period in which they arise.

r) Cash Flow Statement

Cash flows are reported using the indirect method, prescribed in IND AS-7 whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from operating, financing and investing activities of the company are segregated based on the available information.

Description of nature and purpose of each reserve:

General reserve

General reserve is created from time to time by way of transfer profits from retained earnings for appropriation purposes. General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

Retained earnings

Retained earnings are the profits that the Investor has earned till date, less any transfer to general reserves, dividends and other distributions made to the shareholders.

Statutory reserve

As per Section 45-IC(1) of the Reserve Bank of India Act, 1934, every non-banking financial Investor shall create a reserve fund and transfer therein a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared.

FVOCI Equity investment reserve

The Investor has elected to recognise changes in the fair value of investment in equity shares in other comprehensive income. These changes are accumulated within the FVTOCI investment reserve within equity. The Investor will transfer amounts from the said reserve to retained earnings when the relevant equity shares are de-recognised.

32 Employee benefits expense

a. Defined contribution plans:

The Investor makes contributions, determined as a specified percentage of the employee salaries in respect of qualifying employees towards provident fund, which is a defined contribution plan. The amount recognised as an expense towards contribution to provident fund for the year aggregated to ₹ 5.60 lakhs (31 March 2023: ₹ 5.28 lakhs)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

b. Compensated absences:

The principal assumptions used in determining the compensated absences benefit obligation are as given below:

Particulars	As at 31 March 2024	As at 31 March 2023
Discounting rate (p.a.)	7.00%	7.20%
Future salary increase (p.a.)	5.00%	5.00%

The discount rate is based on the prevailing market yield of Indian government securities as at the balance sheet date for the estimated terms of the obligation.

An amount of ₹ 0.52 lakhs (previous year ₹ 2.27 lakhs) pertaining to compensated absences is recognised as an expense and included in "Employee benefits expense" in Note 26.

c. Defined benefit plan: Gratuity

Gratuity scheme - This is an defined benefit plan and it entitles an employee, who has rendered atleast 5 years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement/exit.

- i) On normal retirement / early retirement / withdrawal / resignation: As per the provisions of the Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- ii) On death in service: As per the provisions of the Payment of Gratuity Act, 1972 without any vesting period.

Gratuity payable to employee in case (i) and (ii), as mentioned above, is computed as per the Payment of Gratuity Act, 1972 except the Investor does not have any limit on gratuity amount"

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31 March 2023 The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit (PUC) Actuarial Method.

The Investor has a defined benefit gratuity plan in India governed by the Payment of Gratuity Act, 1972. It entitles an employee who has rendered at least 5 years of continuous service, to gratuity at the rate of 15 days wages for every completed year of service or part thereof in excess of 6 months, based on the rate of wages last drawn by the employee concerned.

vi) **Sensitivity analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Particulars	As at 31 March 2024		As at 31 March 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1%)	1.15	1.35	1.01	1.20
Future salary growth (1.%)	0.43	0.56	0.35	0.88

Although the analysis does not take into account of the full distribution of cash flows expected under the plan, it does not provide an approximation of the sensitivity of the assumptions shown.

vii) **Maturity profile**

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Particulars	As at 31 March 2024	As at 31 March 2023

viii) **Risk analysis**

The Investor is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans and management estimation of the impact of these risks are as follows:

- a) **Discount Rate Risk** : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
- b) **Salary Growth Risk** : Higher than expected increases in salary will increase the defined benefit obligation
- c) **Demographic Risk** : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

33 Financial instruments – Fair values and risk management

i. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as explained below:

ii. Accounting classification and fair values

The following table shows the carrying amounts and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy.

iii) **Measurement of fair values**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted prices in an active market (level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques with observable inputs (level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

Level 3 – Valuation techniques with significant unobservable inputs (level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This level of hierarchy includes Investor’s investments in equity shares which are unquoted or for which quoted prices are not available at the reporting dates.

iv. **Valuation Technique Used to Determine Fair Value**

Specific valuation techniques used to value financial instruments as explained below:

Particulars	Fair value hierarchy	Valuation technique	Significant unobservable inputs	Inter-relationship between unobservable inputs and fair value measurement
Financial assets measured at FVPL or FVOCI				
Investment in mutual funds	Level 1	'Market valuation technique: Investments traded in active markets are determined by reference to quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house, quoted price of equity shares in the stock exchange etc.	Not applicable	Not applicable
Investment in equity shares Quoted	Level 1	'Market valuation technique: Investments traded in active markets are determined by reference to the last traded rate of NSE/BSE.	Not applicable	Not applicable
Investment in equity shares Unquoted	Level 3	'The fair value of the unquoted financial instruments is determined using discounted cash flow analysis and price to book value multiple as applicable	Price not available in active market	Discounting the aggregate future cash flow and Price to book value.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period

34 Financial risk management

Introduction and risk profile

The Investor is a Non Banking Financial Investor registered with Reserve Bank of India.

The Investor's audit committee oversees how management monitors compliance with the Investor's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Investor. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

i. Credit risk

Credit risk is the risk of financial loss to the Investor if a counterparty to a financial instrument fails to meet its contractual obligations and arises partially from the investments.

Credit risk is being managed using a set of credit norms and policies. The Investor has defined roles and responsibilities for originators and approvers. All credit exposure limits are approved by Board of Directors. The Investor follows a process of time-to-time revisiting the credit policy and processes, on the basis of experience and feedback.

The Investor has categorised all its financial assets at low credit risks on account of no past trends of defaults by any parties. Therefore, the provision for expected credit loss has been made as per the Reserve Bank of India's prudential norms at 0.40% of the loan assets (which are not credit impaired)

The carrying amount of financial assets represent the maximum credit risk exposure. The maximum exposure to credit risk at the reporting was:

Particulars	As at 31 March 2024	As at 31 March 2023
Cash and cash equivalents (including bank balances) (Refer Note 3 & 4)	459.21	53.48
Investments	86,109.90	70,391.77
Other financial assets	120.79	60.02
Loan	169.32	29.88
Total	86,859.22	70,535.15

Less: Allowance for Impairment Loss	0.68	-
Total	169.32	-
As at 31 March 2023		
Unsecured Loan	30.00	-
Less: Allowance for Impairment Loss	0.12	-
	29.88	-

Credit risk relating to cash and cash equivalent and bank deposits is managed by only accepting banks and financial institution counterparties after evaluating parameters like capital adequacy, non- performing assets, profitability and liquidity ratios and net worth and by diversifying bank deposits in different banks across the country.

ii. Liquidity risk

Liquidity risk is the risk that the Investor will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Investor's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions in a timely manner, without incurring unacceptable losses or risking damage to the Investor's reputation.

The Investor's primary sources of liquidity include cash and bank balances, deposits, investment in mutual funds and cash flow from operating activities. As at 31 March 2024, the Investor had a working capital of ₹ 7461.47 lakhs (31 March 2023: ₹ 4213.70 lakhs) including cash and cash equivalent of ₹ 459.21 lakhs (31 March 2023: ₹ 53.48 lakhs).

Consequently, the Investor believes its revenue, along with proceeds from financing activities will continue to provide the necessary funds to cover its short term liquidity needs.

iii) **Market risk**

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices, which will affect the Investor's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) **Foreign currency risk**

Foreign Currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Investor is not exposed to foreign currency risk as the Investor does not have receivables or payables in foreign currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31 March 2024 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

b) **Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Investor is not exposed to interest rate risk from the external borrowings that are used to finance their operations.

c) **Market price risk**

The Investor is mainly exposed to the price risk due to its investment in mutual funds and quoted equity shares. The price risk arises due to uncertainties about the future market values of these investments. The Investor has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in mutual funds and equity shares.

iv) **Legal and operational risk**

a) **Legal Risk**

Legal risk is the risk relating to losses due to legal or regulatory action that invalidates or otherwise precludes performance by the end user or its counterparty under the terms of the contract or related netting agreements. There is currently no legal risk on the Investor.

b) **Operational risk**

Operational risk framework is designed to cover all functions and verticals towards identifying the key risks in the underlying processes. The framework, at its core, has the following elements:

1. Well defined Governance Structure.
2. Regular workshops and training for enhancing awareness and risk culture.
3. Documented Operational Policy.

35 **Capital management**

The Investor actively manages its capital base to maintain adequacy of capital to cover risks inherent to its business. The objective is to maintain appropriate levels of capital to support its business strategy taking into account the regulatory, economic and commercial environment. As a Non Banking Finance Investor, the R.B.I requires the Investor to maintain a minimum capital to risk weighted assets ratio ("CRAR") consisting of Tier I and Tier II capital of 15% of aggregate risk weighted assets. The Investor endeavours to maintain a higher capital base than the mandated regulatory capital at all times.

For the purpose of Investor's capital management, capital includes issued equity share capital, other equity reserve less cash and cash equivalents. The primary objective of capital management is to maintain an efficient capital structure to reduce the cost of capital and to maximize shareholder's values.

Following table summarizes the capital structure of the Investor
